Intro

I'm currently in my third year (out of four) studying computer science engineering and web development.

I enjoy being the bridge between engineering and design, and feel right at home as a front-end engineer. I'm experienced in developing and designing products for the web, from simple landing pages to full-fledged web apps.

Programming Languages: JavaScript (ES6), TypeScript, Redux, HTML5, CSS3, C, React.

Libraries & Frameworks: jQuery, Bootstrap, Foundation, React, Redux, Redux Saga.

Tools & Platforms: Git & GitHub, Command Line, Postman, Adobe Photoshop, Adobe XD.

Projects

Portfolio : Portfolio site designed and coded from scratch to showcase my skills and past work.

my easy cart : Web app built on the React TypeScript for my web development class. Created with the intention of providing customers a better experience of Shopping.

Todo List : Web app built on the React TypeScript for my web development class. Created with the intention of helping student complete their daily work which needed to done.
